Clinical learning Outcomes Stage 4

Distant Supervision

By the end of this placement

1. Prioritise care of the patient caseload and liaise with your preceptor on your plan of care
2. Demonstrate knowledge of
 - Chronic Renal Failure
 - Acute Renal Failure
 - Nephrotic Syndrome
 - Glomerulonephritis
3. Demonstrate an accurate assessment of non invasive bloodpressure and respond appropriately to blood pressure deviations
4. Demonstrate the care of a child with a renal condition considering, fluidbalance, nutritional needs and pain management
5. Follow the prescribed plan of care for the child with a mental health concern.

Clinical learning Outcomes 4.5 Internship

Distant Supervision

By the end of this placement

1. Critically analyse your patient caseload while prioritising patient cares
2. Plan, Assess, Implement and evaluate care for the child
 - Chronic Renal Failure
 - Acute Renal Failure
 - Nephrotic Syndrome
 - Glomerulonephritis
3. Critically evaluate patient outcomes with the view of improving delivery of care
4. Respond appropriately when a child's condition deteriorates
5. Liaise closely with the Multi-disciplinary team on delivering safe & effective care

Specific Learning Needs (to be completed by the student)

Please take this opportunity to identify any aspect(s) of care or individual learning outcomes that you specifically want to learn during this placement and document them in your preliminary meeting in your NCAD (National Competency Assessment Document):

- Please discuss these learning needs with your preceptor / CNM / CNF during your placement.
- It is important that you take responsibility for your individual learning and ask your preceptor / CNM / CNF /CPC for the opportunity to be made available to you to experience these aspects of care
- Please refer to the Participation in Care Document and local /national guidelines and policies
- Complete CLO's for previous stage if not previously accomplished
