Specific Learning Needs (to be completed by the student)

Please take this opportunity to identify any aspect(s) of care or individual learning outcomes that you specifically want to learn during this placement and document them in your preliminary meeting in your NCAD (National Competency Assessment Document):

- Please discuss these learning needs with your preceptor / CNM / CNF during your placement.
- It is important that you take responsibility for your individual learning and ask your preceptor / CNM / CNF /CPC for the opportunity to be made available to you to experience these aspects of care
- Please refer to the Participation in Care Document and local /national guidelines and policies
- Complete CLO's for previous stage if not previously accomplished
