1.0 Guideline statement

Irish Law was amended in 2007, 2018 giving nurses the opportunity to expand their scope of practice to include authority to refer for Radiological Procedures by amending the Statutory Instrument (S.I.) No. 303 which incorporated an amendment to the definition of "prescriber" of medical ionising radiation to include registered nurses maintained on the register of nurses by Nursing and Midwifery of Ireland as An Bord Altranais.¹

This Implementation Group has been created to guide the referrer/mentor and members of the LIG in the sign off process for referrers in the service. Its purpose is to support the referrer/mentor/ LIG chair in this process.

In 2018, this law was superseded by SI 256 and the term "prescriber" was replaced with "referrer" which is defined as a person who is entitled to refer an individual for medical radiological procedures to a practitioner. Referrers include dentists, medical practitioners, radiographers as well as appropriately trained nurses.

This Local Implementation Group (LIG) has been created to guide the referrer/mentor and other relevant staff in the sign off process for referrers in the service. Its purpose is to support the referrer/mentor/ LIG chair in this process.

The Requirements and Standards document outlines the requirements for the nurse education and the approval process for education providers for the provision of education for authority to refer for radiological procedures in terms of learning outcomes, competencies for authority to refer for radiological procedures, syllabus/indicative content, theoretical and clinical instruction and scope of practice for referral practice.

Purpose / Remit of this multidisciplinary taskforce

This LIG will give an opportunity to the nursing team to liaise with radiology colleagues on the progress of Nurse Referring for Ionising Radiation in CHI. This group will meet with the referrer and mentor to review the scope of practice for the service.

2.0 Objectives

- Create a space that supports the Nurse referrer and their mentor in the sign off of the nurse referrer Scope of practice document (Sara)
- Create and implement policies, guidelines, and algorithms to support the Nurse Referring for Radiological procedures in clinical areas.
- Gives support to the nurse referrer in all aspects of nurse referring.

¹ *The name An Bord Altranais was changed following the signing of Commencement Order S.I. No. 385 of 2012, 'the body known as An Bord Altranais, or in the English language as the Nursing Board, established by that section 6 shall continue in being and shall be known as Bord Altranais agus Cnáimhseachais na hÉireann or, in the English language, as the Nursing and Midwifery Board of Ireland' (Government of Ireland, 2012).*

- Approve the Scope of Practice of the Implementation group for each nurse referrer
- Ensure risk management processes are in place and robust
- Review any unexpected incidents or events as reported through the risk management process as they arise and escalate as necessary.
- Ensure audit processes are in place and feedback to individuals to facilitate learning.
- Report any updates or concerns to the hospital radiation safety committee.

3.0 Meeting format

- The meeting will be planned in advance giving at least two weeks' notice of the suggested dates by email to the referrer and the mentor.
- An arrangement can be made to meet virtually if required.
- The referrer and site coordinator will ensure all documentation is ready and available for the meeting and the required visits to radiology happen and the required Scope of Practice template is used as agreed by the group.
- The meeting will be chaired by the Chair/co chair of the Implementation group
- Minutes will be taken by dedicated clerical support to the committee
- Introductions will be made and the chair will review the documentation
- It is a given that the Registered Nurse Referrer/Mentor and the members of the group are clear about the role and function of the Registered Advanced Nurse Practitioner/Clinical Nurse Specialist role and that this expanded scope was undertaken to support the service.
- The Scope of Practice will be approved pending any minor correction or edits.
- The mentor and the intended Nurse Referrer will attend the meeting at the appointed time.
- The meeting should take 10 minutes per candidate during which time the scope of practice document will be signed off by the chair of the group.
- Minor editions to the group can be submitted by email and may be dealt with as decided by the group.

4.0 Accountability / Reporting

- The Committee is accountable to the CHI CEO
- The Committee reports to the CHI Radiation Safety Committee
- The Committee will report progress to the CHI Nurse Practice Committee

5.0 Committee Membership

Title	Name
Members	Chief Director of Nursing Chair, Specialty Lead Radiology- Co-Chair DoN/Directorate Nurse Lead – relevant to applicant (s) Principal Physicist Radiology Radiography services Manager from both sites RPOs from both sites Nurse Practice Co-Ordinator, Assistant Director of Nursing, Referring Site co-ordinator from site based on applicant Registered Advanced Nurse Practitioner Clinical Nurse Specialist Head of Radiology – relevant to applicants site appropriate lead invited to the meeting
Co-opted members	Other individuals will be invited to sit on the committee as co-opted members for specific projects to which they can make a particular contribution.
